WORK EXPERIENCE

Celayix

May 2022 – Dec 2022

Web Application Developer Co-Op
Vancouver, BC

- Contributed to the value of the company's flagship work force management software by designing and implementing innovative time processing modules and interactive dashboard features using React.js.
- Identified and resolved urgent front-end bugs, optimizing the user experience, and ensuring a seamless interface for our clients.
- Actively engaged with Quality Assurance professionals and fellow developers to streamline feature development and uphold codebase cleanliness, maintaining team efficiency each sprint.

Vancity Credit Union

Jan 2023 – Sept 2023

Applications Programmer Co-Op
Vancouver, BC

- Led and developed the C# program tasked with the migration of over 20 million customer transaction records from branch-specific legacy systems down to 4 million records onto an archival platform, decreasing storage costs.
- Collaborated with Technical Leads, Applications Managers, and Business Stakeholders to identify technology gaps and design solutions to enhance core banking services and provide more customer value.
- Maintained and monitored critical applications and services, including the Microsoft Power Platform with a focus on Dynamics 365 CE.

PROJECTS

Surrey Restaurant Inspection Tracker

December 2020

- Developed an Android app using Android Studio and Java that efficiently presented health inspection data for various restaurants.
- Utilized Surrey City API to seamlessly access and display real-time and accurate data.

Hope Health Action Worker Web Application

May 2021

- Designed and structured the user interface with React.js, CSS, and Bootstrap, ensuring an intuitive and user-friendly experience to be used by hundreds of health care workers across Africa.
- Implemented and managed databases using Postgres and Sequelize for data manipulation in the server.
- Engaged in regular coordination with organization members and end-users to incorporate user-centered features and iterative revisions.

EDUCATION

Simon Fraser University

April 2023

Bachelors, Computer Science Major, Business Minor

- Accepted on scholarship.
- Studied abroad in Hangzhou, China for 2 years.
